## Objective

Pursuing a Bachelor of Science in Computer Science at Utah Valley University, emphasizing in Full Stack Web Dev. I am currently pursuing an internship that will lead into full-time employment at a software company.

## Experience

### Hoodoo Digital (October 2020 – Present)

#### Software Engineer

- Rebuilt, maintained, and built web applications using Adobe Experience Manager.
- Worked with clients to implement component focused builds of software.
- Cleaned and refactored code to more efficiently run as well as eliminate bugs and errors.

### Talent Management Partners (Jan 2019 – August 2020)

#### Software Engineer

- Designed, rebuilt, and implemented web applications in React libraries and Next.js frameworks.
- Component design and functionality for many of the websites' elements.
- Frequent Agile team meetings to discuss and resolve conflicts and concerns.

## Education

### Utah Valley University (2017 – 2021)

Bachelor of Science in Computer Science, Emphasis in Full Stack Web Dev

### Snow College (2015-2017)

Associate of Arts

## Engineering Skills
